

National Council for Secretariat Training & Development

Training Program on

**Advance Course on e-Procurement: Implementing
Artificial Intelligence (AI) initiatives in Public
Procurement**

**AI in
Procurement**

1. ABOUT NCSTD

National Council for Secretariat Training & Development (NCSTD), is an autonomous Organization (registered with the Department of Labour, Govt. of National Capital Territory of Delhi, registered with Ministry of Micro, Small and Medium Enterprises & representative of the various segments of Indian Industry. The primary objective of NCSTD is to provide training to officers belonging to the Central/State Government Service, as well as officers from other organized/subsidiary services that operate within the State and Central Government. This training aims to enhance the skills, knowledge, and capabilities of these officers, enabling them to perform their duties more effectively and efficiently. In essence, NCSTD plays a crucial role in the professional development of government officers, contributing to the overall improvement of administrative services within the central and state government.

2. PROGRAMME THEME

Public procurement is undergoing rapid transformation through the adoption of Artificial Intelligence (AI), advanced analytics and digital governance mechanisms. Governments and public sector organizations are increasingly leveraging AI-enabled procurement systems to enhance transparency, improve decision-making, strengthen compliance, reduce procurement cycle time and optimize public expenditure.

This programme is designed to build the capacity of government officers and procurement professionals to understand and implement AI-driven approaches across the procurement lifecycle—from planning and tender preparation to supplier evaluation, contract management and performance monitoring. The programme provides practical insights into the application of Artificial Intelligence, Machine Learning, Generative AI and data analytics within public procurement and e-procurement ecosystems.

Through expert sessions, practical demonstrations, case studies and group exercises, participants will gain knowledge of emerging technologies, procurement governance frameworks, ethical considerations, cyber security practices and implementation strategies required for modernizing procurement systems.

The programme aims to support government institutions in creating efficient, transparent, accountable and future-ready procurement environments aligned with digital transformation initiatives and evolving public administration practices.

3. LEARNING OBJECTIVES

- Understand the role and potential of Artificial Intelligence (AI) in transforming public procurement and e-procurement processes.
- Develop conceptual and practical knowledge of AI, Machine Learning, Generative AI and data-driven decision-making for procurement management.
- Apply AI-enabled tools and techniques for procurement planning, demand forecasting, spend analysis and supplier intelligence.
- Strengthen capabilities in tender preparation, bid evaluation and contract management through intelligent and automated procurement approaches.
- Improve transparency, accountability, compliance and governance standards in public procurement systems.
- Identify procurement risks, irregularities and fraud indicators using AI-supported monitoring and analytics frameworks.
- Understand policy, ethical, privacy and cyber security considerations related to AI implementation in government procurement.
- Explore emerging technologies including Generative AI, Blockchain and Robotic Process Automation (RPA) and their applications in procurement ecosystems.
- Design an AI implementation roadmap and change management strategy for modernization of procurement functions within their departments.
- Build institutional readiness for adopting future-ready, efficient and citizen-centric procurement systems

4. BROAD PROGRAMME COVERAGE

- AI and Digital Transformation in Public Procurement
